

LUCY LANDAETA PHOTOGRAPHY.-

HELLO

I'm a Venezuelan photographer that cultivated My career in New York City and decided to move to Shanghai to expand the experience of documents people's greatest moments through the camera.

On My Bachelor degree in Architecture (@ ULA) brought to me multiples windows to look at; shapes, forms, materials, light, and specially proportions, dimensions that gave me an accurate sense of perspective that once has been using in photography creates

Nowadays there is no a day where me and my camera don't get a story to be told, to be register but most importantly to be shared with others, from the day-by-day things to the celebration of unique moments many of us want to have as part of our special memorabilia and verve life documents.

"moments are wrapped by space; activated by people and seasoned by feelings".
