

Soulful Life
PHOTOGRAPHY

'My husband and I booked Soulful Life Photographers for our wedding this past November. They are phenomenal at what they do. In the beginning, they sat down with us to discuss how we envisioned our pictures to be. They asked us questions and were as accepting of our question/comments. They work well together to capture all you want your wedding photos to be. Both Adam and Teri went around taking pictures of all our guests and talked with them as if they'd known them their whole lives, making our guests and us feel special. Adam and Teri are amazing people who are very skilled at what they do which is capturing a moment in time and making that moment last a life time.'

– Kate, *The Knot*

'I was referred by a family friend to hire Soulful Life Photography for my wedding. Boy was I glad to have met Adam and Teri! They took away all the stress of getting posed group shots, always made posing fun and got a tremendous amount of of amazing candid shots. They were so fun to work with, really got into the venue and had some very unique ideas. Having two photographers was a HUGE value, knowing that someone was always around to capture the moment. It was especially fun to see two photos of the same thing but from two different angles. I am so happy with our wedding photos and have recommended their services to every event I have been part of since mine! I will definitely be using them again!'
